

The Voice Thread can be created from this screen.

Upload pictures by clicking the Upload button.

Once images are loaded, you can click on Edit title to add the name of the Voice Thread and description.

You can add other users by going to Share. At OCE we loaded the kids in the system ourselves rather than having the kids do it individually. We did this to keep their identity private and make sure an email was not required. Directions for how to load new users are included below.
