

Make sure a microphone is plugged into your computer, then press Record.

A box will appear requesting access to your computer to record, click yes.

The screen will look like this when recording. Click the Stop Recording button when finished.

The sound clip will automatically replay. You can choose save or cancel.

If you record more than one sound clip, it will be added to the end of the sound clip before it.

Click one of the colors to write on the picture while you are talking. This is such a cool feature.
